CALL FOR PAPERS

SPECIAL SESSION ON

Communication and Computational Intelligence: Emerging Trends and Applicability

International Conference on Recent Advances and Applications in Computer Engineering
November 23-25, 2017 St. Xavier's College, Jaipur, India

Scope

With the growth and advancement in the field of technology and resources innovation, communication and computational paradigm has observed a drastic change. With vastly increasing data and users, and in want of high efficiency and performance, there has been a revolution both in the approach as well as technological advancement. There has come a need to improve upon the already existing techniques and solution for the problems which calls the need to inhibit intelligence in the art of solving problem. This eases out and in some cases make solutions possible for some of the challenging problems in various domains like medical science, weather forecasting, business analysis etc. which earlier prove to be daunting. Emergence of fields like Parallel and Distributed Computing, Big Data Analytics, Cloud Computing, High Performance Computing etc. in the field of computing and enhancements in the field of communication for Wireless Sensor Networks, IOT, Network Security, Communication and Network Intelligence etc. has provided a new dimension to churn out not only solutions but optimized results to benefit users.

The aim of the special issue is to bring together researchers, academicians, engineers, industry professionals and elites working in all areas of communication and computational intelligence to share their research and innovative ideas for cutting edge solutions.

Call for Papers

We invite original (un-published) research contributions based on the above mentioned theme including following topics **but not limited to:**

- Cloud Computing
- Big Data Analytics
- Parallel Computing
- Distributed Computing
- Mobile Computing
- Wireless Computing
- Internet of Things
- Image and Video Processing
- Machine Learning
- Security and Privacy for Information Systems

Important Dates

Paper Submission	Sep 20, 2017
Notification of Acceptance	Oct 15, 2017
Camera-Ready paper	Oct 25, 2017
Registration of Authors of accepted papers	Oct 25, 2017

Paper Publication

All the accepted papers to be presented in this session will be published in the proceeding of CCIS series of Springer and the extended versions of the selected papers will be published in special issue of the International Journals.

Paper Submission

Full Length paper in the prescribed format of Springer can be submitted through the easy chair link provided at the Conference website: <http://easychair.org/conferences/?conf=raace2017> (a copy of research paper to be send to the below mentioned email ids)

Track Chair

Mr. Rahul Saxena & Ms. Monika Jain, Manipal University, Jaipur, India
Email id: rahul.saxena@jaipur.manipal.edu, monika.jain@jaipur.manipal.edu
